A technical exhibition is organised for the full duration of the Conference. It is an opportunity to meet experts, professionals and companies, to discuss experiences and international practices, to learn about new projects and innovations from different countries and to strengthen ties within the geotechnical engineering professional community.

Stands are located nearby the Conference rooms and within the coffee-breaks area, offering natural and friendly discussions and meeting points for exhibitors and the conference participants.

Terms of payment

100% of total amount is asked with the Booking Form in return. The reservation will be confirmed after payment.

Cancellation conditions

Cancellation by Organizers
If due to force majeure, it becomes impossible to use the premises for the days and hours provided, the responsibility of the Organizing Committee would be strictly limited to refund paid amounts. Exhibitors cannot claim any compensation or indemnity from the CORUM.

The Symposium Organizing Committee reserves the right to change the times indicated. The postponement of the event or change of venue does not justify a complete or partial cancellation of reservation by the exhibiting companies.

Cancellation by Exhibitor

All cancellations after September 6th 2016 must be notified to the organizer by E-mail, and will get no refund.

Booth allocation

The allocation of places will be made by the organizer in accordance with the widest possible choice indicated by exhibitors.

The organizer reserves the right, before assembly of the stands and in special circumstances, to amend the plan of the exhibition and the booth attribution without that the exhibitor can aspire to damages.

Failure of occupation

Booths or locations not occupied the day before the opening of the event will be allocated to another exhibitor. In this case, the not installed exhibitor cannot claim any damages or repayment.

Obligations of the Exhibitor

All applications, once given, finally and irrevocably commit its maker. The signing form entails the obligation to keep the booth or site allocated for the duration of the event. Removal of goods will take place after the closure of the event.

The participation in the exhibition implies the respect for the capacities of the present regulation and the measures of order and the police which would be both prescribed by the authorities and by the organizer. Any malpractice against the present regulation or against the particular regulations can entail the immediate, temporary or definitive exclusion from the exhibitor, without any compensation nor refund of the paid sums.

I have read these terms and agree with them
